PROFILE SUMMARY

I am a B.Sc. Computer Science graduate with experience in front-end development. I have worked on projects that demonstrate strong skills in building user interfaces and web applications. I am looking for a role where I can apply my technical knowledge, grow professionally, and contribute to impactful projects.

PROJECTS

E-commerce website for online mobile store

Tech Skills - Html, Css, Javascript, React

- Implemented key features including product listing, filtering, search functionality, and a shopping cart.
- Focused on user-friendly design and mobile responsiveness to enhance user experience.
- Managed component-based architecture and routing using React Router for smooth navigation.

Weather Dashboard

Tech Skills - Html, Css, Javascript, React

- Integrated OpenWeatherMap API to fetch weather information based on user input location.
- Designed a clean and user-friendly UI with responsive layouts for both desktop and mobile views.
- Implemented features such as temperature, humidity, weather conditions, and icons with dynamic updates.

Personal Portfolio website

Tech Skills - Html, Css, Javascript, React

- Utilized React Bootstrap for responsive layout and UI components for a professional design.
- Integrated Framer Motion for smooth and engaging animations to enhance user experience.
- Built reusable React components for sections like About, Projects, Resume, and Contact.
- Ensured responsive design for optimal viewing on both desktop and mobile devices.
- Managed code with Git and deployed the site using GitHub Pages for easy accessibility.

EDUCATION

Bsc CS, CGP - 7.4, The Madurai Diraviyum Thayumanavar Hindu College (2022 to 2025)

ACHIEVEMENTS

- Successfully developed and deployed responsive web applications using React, including an e-commerce site and a personal portfolio, showcasing strong UI/UX design and front-end development skills.
