RAKESH

MERN stack devoloper

Ph : 8072752955   6/76 pillayar kovil streer, Vagaikulam, THiruppanikarislalkulam Tirunelveli - 627010   www.linkedin.com/in/rakesh19052005   Github - github.com/withRakesh

SUMMARY

Skilled **Frontend Developer** with hands-on experience in building dynamic and responsive web applications.. Proficient in backend development with the MERN stack (MongoDB, Express.js, React.js, Node.js), enabling full-stack capabilities. Strong understanding of RESTful APIs, version control (Git), and deployment tools. Passionate about creating user-friendly experiences and delivering clean, maintainable code in collaborative environments.

EDUCATION

THE MADURAI DIRAVIYUM THAYUMANAVAR HINDU COLLEGE   2022-2025

Bsc Computer science   CGPA - 7.4

SKILLS

- Html/Css
- bootstrap
- mongodb
- Javascript
- Nodejs
- React
- express

PROJECTS

ElectroKart - Ecommerce website

Tech Stack: React.js, html/css, bootstrap
Developed a responsive e-commerce website for electronics laptops, watches, headphones.
- Created responsive UI with React.js functional components and Bootstrap
- Implemented add-to-cart functionality and dynamic cart updates using React state
- Used React Router for seamless navigation between pages
- Focused on mobile-first design, lazy loading images, and performance optimization

Task Manager with JavaScript & Local Storage - CRUD funtionality

Tech Stack: html/css, javascript
Built a lightweight to-do list web app with full CRUD functionality (Create, Read, Update, Delete).
- Users can add, edit, delete, and mark tasks as completed
- Persisted data using Local Storage to retain tasks after page reloads
- Focused on Responsive UI DOM manipulation, event handling, and data persistence

Weather App

Tech Stack: Html/css, JavaScript
Developed a responsive weather application that fetches real-time weather data based on user input.
- Integrated Weather API to fetch live temperature, humidity, and weather conditions
- Built with vanilla JavaScript for dynamic content updates without page reloads
- Implemented error handling for invalid city inputs and empty fields
- Displayed data in a clean, mobile-friendly UI with dynamic icons and background changes

personal portfolio

Tech Stack: Html/css, JavaScript, Bootstrap, React.js
- Designed clean sections for About Me, Skills, Projects, and Contact
- Implemented smooth scrolling, hover effects, and mobile responsiveness
- Showcased real-time projects with GitHub and live demo links
- Deployed the site using GitHub Pages / Netlify
